EDUCATION

Bachelor of Science, Data Science Aurora's Degree and PG College, GPA: 9.1/10 **2020 — 2023**

PROJECTS

LearnScape, HTML/CSS, Javascript, Twilio Programmable SMS, Alan AI, Getstream.io
- LearnScape is a streamlined CNCF LandScape where users can filter and search for projects to contribute to based on their tech stack.
- Alan AI can answer users' DevOps-related questions. Users are given their own personalised roadmap to help them achieve your DevOps goal. If there is an error on the server and it is about to shut down, Twilio will notify the project administrators.

AIry Pages, HTML5, CSS3, JavaScript, Threejs, Google-Actions
- The game focuses on improving decision-making for autistic children. The use of Google actions interactive canvas for the quiz app will benefit autistic children's language and communication skills, as well as emotion recognition in everyday life.
